FAIRTRADE: MAKING A REAL DIFFERENCE.

In conventional trade, farmers and producers are usually paid the lowest possible price, sometimes below production costs. With **FAIRTRADE**, production costs are always covered by a minimum guaranteed price. Producer communities also receive a small premium towards business and social development.

The **FAIRTRADE** mark on a product means that it has been independently certified to internationally agreed **FAIRTRADE** standards. Any local business, church or community organisation committed to selling and serving **FAIRTRADE** goods can be listed in this directory. If you would like to be in it, ring **01787 372738**.

A local group continues to campaign for an increase in public awareness and amount of **FAIRTRADE** products available in our town. If you would like to join us, please ring the number above.
