

## **Exploring Contemporary Ideas in Science and Religion**

Come and listen and discuss at

**All Saints church in Kesgrave**

---

**Rev. Dr. Holder - Cosmology and Theology**

**6.45-9.00pm Monday 15th November**

**Dr Denis Alexander - Genetics and Human Identity**

**6.45-9.00pm Monday 22nd November**

We are delighted to be hosting the above events in association with Christians in Science. Both speakers are extremely qualified in their areas and able to explain complex ideas with imagination and Christian insight. The evenings will be suitable for anyone who wants to explore how science and faith can work together.

The format of each evening will include a simple (hot or cold) meal from 6.45pm to 7.15pm when the speaker will take over. There will be time for questions at the end of the talk.

Please contact Margaret on 01473 623208 if you are interested as places are limited.
